FJORD 36 MY TENDER

Fjord shipyard presents its new tender dedicated to superyachts on the basis of its 36'. This new concept stems from Fjord's 36' Open developed at Allseas Design and Marivent Yachts. It forcibly targets multipurpose functions for large superyachts.

This tender boasts a top speed of 41 knots, it features an all exclusive and attractive design as well as a versatile layout.

It will surely make a few heads turn as it speeds to get to destination really standing out of the chorus line it offers every comfort even when deployed as a day cruiser with spaces in which to relax in and to sunbathe. High topsides for children's extra safety and to avoid spray and a

flush deck with ample lounge room in the stern and more in the bow with retractable table complete the picture, while the centrally placed console is conveniently shaded by a hardtop. Below deck we find a double cabin and electric WC.

AIS identification, VHF radio, latest generation stereo equipment, anti theft burglar alarm device, and Volvo Penta Joystic for the IPS are all standard. Among the list of optional gear there's scuba diving apparatus, water skis, but also an extensive range of different fabrics and essences to chose from.
