

# New FJORD 39 to come

## As XL or with V10 outboards as XP

Greifswald, 5 July 2023

**FJORD announces two new models in its successful series of walkaround yachts: The 39 XL with powerful inboards and the 39 XP with high-performance Mercury V10 outboards.**

Both boats share the largest T-top in this size class and their impressively generous dimensions on deck. With its unique combination of performance, comfort and iconic design, also the new FJORD 39 is an absolute highlight on the water. The open deck layout offers the unrestricted freedom of movement typical of FJORD, and the carefully planned layout of the cockpit allows for seamless transition between the different areas. The designers have maximised the available space and ensured that every square inch serves a purpose. The interior has been significantly upgraded from the FJORD 38 and sets new standards in this category of boat. As with all Fjord yachts, the 39 XL and 39 XP feature a distinctive T-top and a choice of windscreen options to protect from the elements, even at full speed.

The new FJORD 39 XL/XP will be officially presented in autumn 2023.
