

## Press Release

(Greifswald/Oslo, September 6, 2007):

### **Fjord Boats AS is presenting the Fjord 40 Open at the 39th Southampton Boat Show**

[www.fjordboats.com](http://www.fjordboats.com)

---

Fjord Boats will be presenting its new Fjord 40 Open at Southampton's Mayflower Park from September 14<sup>th</sup> to September 23<sup>rd</sup>. All visitors will have this fine opportunity to see this motor yacht with her clean lines and revolutionary drive system at Fjord Boats UK Ltd. stand F015.

Her minimalist, modern, attractive exterior separates the Fjord 40 Open from other motor yachts. She is Fjord Boats' first model in a brand-new line of motor yachts. Designers and naval architects surrounding award-winning designer Patrick Banfield concentrated on the essential: A fast hull, an extremely generous deck layout and a comfortable interior that stands out in this class of motor boats.

The results have already convinced many customers. The IPS-drive with its twin Volvo diesel engines accelerates the boat to 44 knots. The additional joystick makes the yacht's maneuverability child's play in port.

The deck is teak all around offering a large outdoor area and more than 10 sqm. of sun beds. The dual purpose eating and sitting area has space for up to 12 people and can easily be turned into a sun bed. No other motor yacht in this class offers more sun deck. Below, the Fjord convinces with her generous interior and innovative details. Her head room of more than two meters allows even tall people to stand up straight.
