FJORD 41 XL wins European Powerboat of the Year 2021 Award

Greifswald, 22 January 2021: The FJORD 41 XL has been named European Powerboat of the Year 2021 by the continent's leading powerboat magazines. Due to the pandemic and the resulting cancellation of the boat Düsseldorf show, the award ceremony was held virtually for the first time at the International Maritime Museum in Hamburg.

In the "Yachts up to 14 metres" class, the FJORD 41 XL overcame renowned competition to win the most important prize in the global motoryacht industry. Despite the adverse conditions of the past year, FJORD has nevertheless succeeded in developing a new top model with a pioneering deck module configuration. Below deck, too, the newly-crowned winner offers comprehensive layout options and first-class equipment.

Torsten Moench, Editor-in-Chief of BOOTE magazine: "Thanks to the nine deck layouts, which can be freely combined, the customer has the possibility to perfectly adapt the boat to their own needs. As usual with FJORD, the handling characteristics and workmanship are top class."

Andrea Zambonini, Product Manager FJORD: "We are incredibly proud to have won this important award. The whole team worked hard to ensure that the FJORD 41 XL offers customers the maximum in terms of customisation and comfort. The high demand for this model confirms the verdict of Europe's specialist boating journalists."
