

Hanse 350

(Stand N020B)

The new 350 is said to be an extremely fast and well-balanced boat, but still able to be crewed shorthanded courtesy of her non-overlapping headsail, double-ended mainsheet and single line reefing. Deck fittings have been positioned where they can be easily reached and her mainsheet traveller is on the coachroof.

There are two interior options with two or three double cabins. The addition of extra wood below has made the interior feel warm and cosy. The heads has been moved aft in the latest Owner's model, which has given more room to the saloon, making it more spacious and comfortable.

Specifications – Hanse 350
