Hanse 

PRESSEMITTEILUNG / PRESS RELEASE

HanseYachts at the “Sjøsprøyt og ville dager” 2008 in Harstad

The boat show in the Marina in Harstad, Norway is already in its 10th year! A real summer treat for all Norwegian sailors and our Norwegian commercial partners will be there showcasing the Hanse 350, the Hanse 370 and the Hanse 430e!

On the **Hanse 350**, loads of sail surface, a performance T-keel and fast lines all combine to create unmatched sailing performance. Moreover, the HanseYacht team of designers has also broadly enhanced the interior concepts. The saloon, the pantry, the bathroom and the bunks – numerous requests and owner know-how have been implemented to improve these features.

The 'Schüddelfrost', a concept yacht for the **Hanse 370**, has already sailed in the front of the pack at international regattas and in doing so showed off her enormous speed potential. In addition, she has had her deck layout and other designer features overhauled thus bringing her up to the standards of the other models in the luxury class.

Numerous improvements await the visitors on board the **Hanse 430e**. The “e” in the name stands for innovation, which includes the materials used as well. The hulls on these yachts are made from epoxy, and by using such materials, long-lasting sailing pleasure and high value retention are both guaranteed.

The “Sjøsprøyt og ville dager” opens on the 21st, 22nd and 23rd of August at 10 a.m. and on August 24th at 11 a.m. Information regarding the boat show, the exhibitors and booth layout is available at <http://www.harstadmarina.no/messe>.
