

## HANSE 495

**T**HE new Hanse 495 represents a further step in the development of the new family of Hanse dynamic cruisers, following the outstanding Hanse 545 and remarkable Hanse 445.

The clear requirement behind the “Hanse 495” was to satisfy the toughest of demands from sailors who seek outstanding cruising performance whilst still expecting the maximum comfort below deck.

With the help of Schnasse Design Studio and our own Watervision Design Studio we have succeeded in meeting these demands and created a sailing yacht which will make any owner proud and fulfill his/her needs for years to come.

Outstanding exterior looks complement the interior which also provides many smart, functional details creating a very luxurious and yet practical feel.

- Higher freeboards provide greater interior volume and generous capacity for tanks and equipment.
- Sandwich construction hull topsides with a robust GRP inner grid, powerful engine, deck stepped mast with chain plates integrated into the toe rail.
- Special attention was paid to the galley design with creative drawer and storage solutions and an extended options list for the owner's choice of appliances.
- Sailing with either fully battened or furling mainsail combined with a self tacking jib, all optimized for management by a shorthanded crew.
- Use of SMS (Smart Mooring System) with retractable bow and stern thruster combination makes docking simple and secure.

### SPECIFICATIONS

<b>LOA</b> 50ft 6in // <b>LWL</b> 44ft 5in
<b>BEAM</b> 15ft 7in // <b>DRAFT</b> 7ft 9.5in
<b>DISPLACEMENT</b> 30,900lb
<b>BALLAST</b> 8,830lb
<b>SAIL AREA</b> 1,390 ft <sup>2</sup>
<b>FUEL/WATER (GAL)</b> 96/56
<b>ENGINE</b> 72 hp // <b>DESIGN</b> Judel/Vroljik
