

Press Release 2007/ 35

HanseYachts at Salon Nautico Internacional de Barcelona– HanseYachts' entire fleet on display from November 3rd – 11th

Greifswald, October 19, 2007. The Barcelona Boat Show is back in its 46th year convincing with impressive figures: 9 days packed with activities, 2.120 boats on display, 115,000 sqm of fairground area and 32 nations represented. HanseYachts will present its entire fleet: Hanse 320, Hanse 350, Hanse 370, Hanse 400, Hanse 430e, Hanse 470e, Hanse 540e and Hanse 630e. The team of experts of Hanse dealer Marina Estrella S.L. welcomes you!

The brand-new **Hanse 320 and Hanse 350** with their impressive sailing characteristics are the youngest members of the Hanse family and will have their premiere season 2007/2008 and definitely will be one of the highlights at Barcelona Boat Show. Judel/vrolijk & co. designed them with considerable upwind sail area, modern T-speed keels, and a fast hull. Below deck, the interior design experts at HanseYachts optimised the living space and added new elements of style for a more spacious and luxurious interior. Flush hatches and two opening ports on either side of the cabin top provide ample light and fresh air. Tinted ports are characteristic of these new Hanse models and a shared feature with their larger sisters in the premium class/segment. The Hanse 320 has already been nominated for the European Yacht of the Year Award! Distinctive characteristic for yachts for that size: The steering wheel system is a standard with the Hanse 350 – ergonomically designed, smooth-running and perfectly balanced.

The **Hanse 370** prototype "Schüddelfrost" has already shown her tremendous speed potential in international regattas. Hanse's self-tacking jib, fully battened mainsail, quick-release gennaker pin, intelligent placement of fittings, and ingenious single-line reefing system make it easy to handle this performance cruiser even with the smallest crew. Below decks, the Hanse 370 is special too. Her standard equipment list includes amenities that are not normally included on a boat this size: A large shower stall that is separate from the sink and the head, a large top and side loading refrigerator (130l), and a water heater. A current updated feature: The powerful quality heating system from Eberspächer.

The **Hanse 400**, „European Yacht of the Year 2006“, is an impressive example of Hanse's cross-over concept: Maximum speed with maximum comfort for a very reasonable price. The oversized berth in the owner's cabin, unique among 40-footers, is testimony to her spacious interior. Hanse offers its customers a terrific value with features like Lewmar winches and satin varnish on all mahogany interior surfaces. Together with Hanse 370 the deck layout and further attributes of the Hanse 400 have been adapted to Hanse's upper class models. All hatches now are flush on deck, four large windows provide lots of daylight into the cabin and two additional hatches close to the companionway are efficiently ventilating the rear cabins. The brand-new design of the steering pedestals rounds off the upvaluation of the Hanse 370 and Hanse 400.

The **Hanse 430** has the same flair as her larger sisters, the 470e, 540e, and the 630e. A modern, clean design with a skylight built flush into the deck, flush hatches on deck, an open transom, a 9/10 rig, enormous stowage, and consistent use of first-rate equipment are also characteristics shared with the yachts of Hanse's premium line. Another example: Space for the genoa's roller-furler is incorporated into the deck mould, resulting in less clutter and improved performance. Because the genoa tack is lower, the foresail is bigger and more efficient.

The **Hanse 470e** marks the entry to our newly defined premium line. The new approach is particularly recognizable in the cockpit and on deck. Halyards, sheets, the track for the self-tacking jib ahead of the mast, and the spray hood are all completely integrated into the deck. Those features, together with flush hatches, radically increase the amount of open deck area. Two freestanding steering pedestals and the lack of a bridge deck at the companionway make the cockpit extremely functional and create a second living space on board. The new enlarged swim platform in the transom extends this space even further.

The **Hanse 540e** reflects the incredible talent at judel/vrolijk & co, especially Rolf Vrolijk's enormous experience designing successful America's Cupper Alinghi. This premium model has clean lines and is both fast and elegant. Her interior is spacious, luxurious, and can be configured to suit the owner's taste. Hanse star designers gave the 540e extra performance with an iron/lead keel. A deep centre of gravity, and optimal total weight and keel profile "turbocharge" the performance of the 540e. The customer can choose from approximately 70 different interior design variations, including a variety of fine woods and cabin layouts. Consequently HanseYachts developed the yacht configurator – a unique planning tool which is available on HanseYachts' website.

HanseYacht's 19 metre flagship, **Hanse 630e**, is a real eye-catcher due to her clean hull lines and neat and tidy deck. With a revolutionary keel construction the draught of the Hanse 630e is now hydraulically adjustable between 3.10 and 2.35 metres (7'7" – 10'2"). In cooperation with the construction office judel/ vrolijk & co this new telescopic keel construction was developed, which does not require any space in the interior, and which enables the owners to cruise in the shallower waters of the world.

The largest yacht built in series in Germany ever provides more flexibility with simple handling at the same time. Even a small crew can sail this yacht safely, fast and now in significantly more areas. Above the water everything remains as it was – and under water there is more space! The new telescopic keel is available as an option.

The "e" in the type designation of the Hanse models 47e, 540e and 630e stands for "epoxy": The hulls are a sandwich construction using Corecell structural foam and wet epoxy pre-preg fibre from SP-Systems, moulded using vacuum technology for uniform compression of the laminate. This system produces significantly greater stiffness while reducing weight. Durability and high resale values are the result. Optional hanse 370, Hanse 400 and Hanse 430 are available with epoxy hulls too.

An overview of all Hanse yachts on display:

Specification Hanse 320:

LOA: 9.63 m/ 31'6"
Beam: 3.30 m/ 10'8"
Draft: 1.75 m/ 5'7" (standard)
1.40 m/ 4'6" (optional)
Displacement: 4.7 t/ 10,362 lb
Sail Area: 51.35 m²/ 553 sq ft
Design: judel / vrolijk & co

Base price with standard equipment: 60,950 € plus VAT

Specification Hanse 350:

LOA: 10.59 m/ 34'7"
Beam: 3.55 m/ 11'6"
Draft: 1.85 m/ 6'1" (standard)
1.45 m/ 4'8" (optional)
Displacement: 5,7 t/ 12,672 lb
Sail Area: 64.86 m²/ 698 sq ft
Design: judel / vrolijk & co

Base price with standard equipment: 78,900 € plus VAT

Specification Hanse 370:

LOA: 11.35 m / 37'3"
Beam: 3.75 m / 12'4"
Draft: 1.95 m / 6'5" (standard)
1.60 m / 5'3" (optional)
Displacement: 7.2 t / 15,873 lb
6.8 t / 14,991 lb (optional with epoxy)
Sail Area: 87.40 m² / 941 sq ft
Design: judel / vrolijk & co

Base price with standard equipment: 96,800 € plus VAT

Specification Hanse 400:

LOA: 11.99 m/ 39'4"
Beam: 4.04 m/ 13'3"
Draft: 1.98 m/ 6'6" (standard)
1.65 m/ 5'5" (optional)
Displacement: 8.4 t/ 18,519 lb
Sail Area: 105.60 m²/ 1,137 sq ft
Design: judel / vrolijk & co

Base price with standard equipment: 110,800 € plus VAT

Specification Hanse 430:

LOA: 13.25 m/ 43'6"
Beam: 4.25 m/ 13'11"
Draft: 2.20 m/ 7'33" (standard)
1.80 m/ 5'11" (optional)
Displacement: 10.4 t/ 22,958 lb
Sail Area: 126 m²/ 1,356 sq ft
Design: judel / vrolijk & co

Base price with standard equipment: 139,900 € plus VAT

Specification Hanse 470e:

LOA: 14.19 m / 46'7"
Beam: 4.46 m / 14'8"
Draft: 2.60 m / 8'6" (standard)
2.30 m / 7'7" (optional)
7.95 m / 6'5" (optional)
Displacement: 12.2 t / 26,932 lb
Sail Area: 124.00 m² / 1,334 sq ft
Design: judel / vrolijk & co

Base price with standard equipment: 199,800 € plus VAT

Specification Hanse 540e:

LOA: 16.08 m/ 52'10"
Beam: 4.91 m/ 16'1"
Draft: 2.80 m/ 9'2" (standard)
2.43 m/ 8' (optional)
1.95 m/ 6'5" (optional)
Displacement: 18.7 t/ 41,226 lb
Sail Area: 155 m²/ 1,668 sq ft
Design: judel / vrolijk & co

Base price with standard equipment: 299,800 € plus VAT

Specification Hanse 630e:

LOA: 19.00 m/ 62'4"
Beam: 5.20 m/ 17'1"
Draught: 2.95 m/ 9'7" (standard)
2.35 m – 3.10 m/ 7'7" – 10'2" (option telescope keel)
Displacement: 23.7 t/ 52.318 lb
Sail area: 214.60 sqm/ 2.310 sq ft
Design: judel / vrolijk & co

Base price with standard equipment: 730,000. - € plus VAT
