

Hanse goes China!

Greifswald/Hong Kong, March 4, 2008. The „Gold-Coast-Boat-Show 2008“ will take place from May 1st - 4th in Hong Kong. It is the leading water sports fair of the region. And for the first time a boat produced in Greifswald will be on location in China - our trading partner Piercey Marine will be presenting the **Hanse 370!**

This yacht clearly displays the typical cross-over-concept of Hanse: maximum width, maximum speed, and maximum living convenience.

As a concept yacht, the Hanse 370 „Schüddelfrost“ has already participated among the first in international regattas, and proven her great potential for speed.

A ship revised in the deck layout, as well as in many other design characteristics will be expecting the fair visitors on the grounds of the Gold Coast Yacht & Country Clubs in Hong Kong.

The show will be opened for dealers on May 1st, and then to the public on Thursday and Friday from 12 a.m., on Saturday and Sunday from 10 a.m.
