Preliminary Q3 result 2017/18 and forecast adjustment for 2017/2018 financial year

Publication of insider information in accordance with Article 17 MAR

Greifswald, 19 April 2018 – According to the provisional, unaudited figures for the first nine months of the 2017/2018 financial year, HanseYachts AG generated a negative EBITDA* of EUR -0.4 million (previous year: EUR +4.6 million), despite a further 6% increase in sales versus the same period in the previous year (EUR 80.2 million). The integration of the Privilege brand into the Hanse brand portfolio and higher initial costs for newly developed yachts resulted in substantial additional expenses. Unforeseeable non-recurring costs related to the extreme weather in Q3 2017/2018 had a further impact. Optimization measures were initiated to improve earnings but will not show their full impact during the current financial year.

The Management Board of HanseYachts AG has therefore come to the conclusion that the earnings forecast for the 2017/2018 financial year (1 July 2017 to 30 June 2018) cannot be reached. So far EBITDA was forecast to rise compared with the previous year, adjusted for non-recurring effects. For 2017/2018 as a whole, the Management Board is now expecting EBITDA to be in the range of EUR +5 million to EUR +7 million (previous year 2016/2017: EUR +10.9 million, adjusted for the previous year's non-recurring effect: EUR +8.7 million). Net income for the 2017/2018 financial year will decrease accordingly and therefore be negative (previous forecast: positive consolidated net income).

The Management Board assumes that the subsequent 2018/2019 financial year will again show positive consolidated net income with moderate sales growth. In the medium term, the company aims to achieve the EUR 200 million sales threshold with an EBITDA margin in the range of 10% to 12%.

Details of the business development in the first nine months of the 2017/18 financial year are expected to be announced by HanseYachts AG on May 31 2018 with the publication of the interim report for Q3 2017/2018.

(* EBITDA = operating earnings before interest, taxes and depreciation and amortisation)
