FJORD power boats distributed by Yacht Sales International

Hanse Yachts has won YachtSalesInternational.com as new distributing partner for its unique FJORD power yachts made in Germany.

The FJORD luxury power boats, with their award-winning design, range from 38 to 53 feet in length. Spectacular design, high speed, and intelligent comfort with an eye for the practical are in the DNA of every FJORD power yacht.

Based in Fort Lauderdale, FL, with additional offices in Palm Beach and Cape Coral, FL, Annapolis, MD, and Chicago, IL, YachtSalesInternational.com already distributes RYCK power boats, HanseYacht's youngest brand.

“We’re excited about expanding our professional partnership with YachtSalesInternational.com”, says Maxim Neumann, Vice President Sales of Germany-based HanseYachts. “We are convinced that with them we have found the ideal partner to serve our FJORD customers in these regions as well.”
