HanseYachts suspends participation in boot Düsseldorf Unfavourable conditions for indoor trade shows in winter

Greifswald, 31 October 2022: HanseYachts expects that in the winter of 2022/23 indoor fairs again cannot yet be held under conditions as they were used to until 2019 and be comparably successful. Therefore, the company will refrain from participating in boot Düsseldorf in the coming winter.

We very much regret that, following its successful presentation in Barcelona, the German premiere of our new Hanse 510 can thus also not take place in Düsseldorf. As soon as the external conditions for indoor events being held in winter have returned to normal, HanseYachts is looking forward to presenting its yachts at the relevant top-class boat shows again.
