PRESSEMITTEILUNG / PRESS RELEASE

Full sail amongst sparkling bolides: Moody shows its colours at the "British International Motor Show"!

The British International Motor Show from the 23rd of July to the 3rd of August is THE British trade fair for all vehicles motorised! Half a million of visitors are expected this year on the premises of the ExCeL in the London Docklands. For the first time organisers of the Southampton and London Boat Show also get involved. And Moody Boats with the brand-new Moody 45 DS will be part of the "Marine Experience"!

The first vessel of a completely new yacht generation of the house Moody shoes brand-new ideas in the construction of sailing yachts. Thus the salon is on one level with the cockpit – this creates a feeling for space, which is usually only experienced on large motor yachts. Clear lines, a tidy deck and thought-through operating elements allow for a small crew already to sail this sailing yacht safely on high seas.

In addition there are various variants for the interior so that below deck no wishes remain unmet. The significant long roof provides for good protection against the weather without impeding the view.

And as the hull is made of Epoxy not only osmosis is no longer a topic on this vessel; the 45 DS also has particularly good sailing characteristics.

The trade fair is open during the week from 10.00 am to 9.00 pm and at the weekends from 10.00 am to 8.00 pm. At any rate the new Moody is definitely a highlight and thus worth a visit – even if the main attractions of the motor show should actually have wheels...
