A monster new catamaran from the French multihull specialist, the Privilege Serie 6 was conceived by well-known designer Marc Lombard and measures in at 64ft.

with a beam of 30ft, it means simply masses of internal volume and plenty of sunbathing areas up on deck. There are several different layout options and the owner version has an impressive 6m-wide main cabin.

While the emphasis of the Serie 6 is unashamedly cruising, her purposeful looks and generous sail area suggest that she should be capable of providing more than a modicum of performance. She promises to be an excellent candidate for chartering and for long distance bluewater cruising.
