FLYBRIDGE SERIES F380 F450

S SERIES

S450

## THE S450 EMBODIES ONE SIMPLE PRINCIPLE – TO DELIVER MORE.

The distinctive S450 has been crafted to offer more social space than any other cruiser of its size. An electronic convertible cockpit system offers multiple layout options including comfortable alfresco dining for eight. It features a soft-top convertible roof system which conveniently folds away to allow the light and air to stream in. There's permanent sleeping for five, and an occasional double berth in the saloon that provides excellent sleeping possibilities. Quite simply, it delivers all the flexibility you could ever need.

S450

The cockpit takes advantage of the full beam width to provide ample space to seat eight and comes with a wetbar, a sink and space for a BBQ and fridges. When not dining, an electronic control quickly converts the very same seating into a sunbathing area or into different seating arrangements. A large bathing platform comes as standard, with the option to upgrade to a Hi-Lo. At the helm you'll find two wide helm seats and a fully integrated dashboard plus two forward facing seats to the port side so everyone can feel part of the action.

Perfect for outdoor living, the S450 opens up to allow the sun and breeze to stream in. And when it's time to take a cool break in the shade, the full-length electric soft-top convertible roof system can be unfolded in seconds.

S450

However, to really appreciate how much space has been created within the S450, you simply need to take a tour of the living quarters. A beautifully styled saloon offers the freedom to dine in comfort and easily converts into a double berth, while the galley has enough room to accommodate a full height fridge freezer and generous worktop space. The essence of the Sealine design philosophy of light and space is put in scene by opening the enormous skylight window – a convertible feeling of living.

S450

A luxurious full-width master cabin comes with double wardrobes plus a large separate shower compartment and head. The aft cabin with its en suite layout has three berths with versatile arrangements when the sterndrive engine option is chosen, and two berths that can be arranged as twin berths or a double when the IPS engine option is selected.

Fuel capacity	1200 l	264 UK gal
Water capacity	315 l	69 UK gal
Displacement	11,227 kg	11.27 tons
CE Category	B	

S380

# THE AWARD-WINNING S380. UNLIKE ANY OTHER SPORTS CRUISER IN ITS CLASS.

The clean and crisp lines of the S380 create a simple, elegant design. This iconic boat holds five permanent berths, a first for a boat of this class, and an innovative roof system that goes from open to closed in seconds. Forget what you know about sports cruisers. The S380 delivers a generous length to beam ratio.

S380

Step into the stylish cockpit of the S380 and you'll immediately notice an extraordinary amount of space – extremely versatile. Simply fold over the cockpit table and lower it down to create a generous sunbed area with wetbar opposite. And should the weather change for the worse, a soft-top convertible roof system can enclose the all weather cockpit with ease.

When you want to enjoy the open sea, a twin helm seat with bolster offers great visibility through the screens, while a distinctive deep V-hull ensures an efficient, stable and comfortable ride at any speed.

Below deck, a fresh stylish interior offers an exceptional head height. Coupled with the large saloon skylight, this helps to create a bright and spacious atmosphere. A large fully equipped L-shaped galley provides excellent storage that allows you to cater for everyone.

S380

Double doors from the saloon open to reveal the forward cabin and create an open plan feel throughout; again the large hatch skylight bathes the area in natural light. The ensuite and day head has a separate full height shower stall and separate head which offers practicality and comfort, while the aft cabin holds three permanent berths – a premiere for this class of boat – and, again, another large hatch skylight that adds that distinct feeling of space and freedom.

F SERIES

F450

## THE F450. DESIGNED FOR LIVING LIFE TO THE FULL.

For size and sociability, there's nothing quite like the F450. This flybridge cruiser offers unrivalled space for entertaining with alfresco dining for six, berths to sleep five, and a sunbathing area that converts in minutes.

From the outside the bold exterior shows the distinctive F450 style. The open-plan feeling and seamless connectivity to the outdoors allows light to flood in. An extensive choice of high quality wood finishes and fabric options allow you to create a luxurious ambiance to feel like home.

# F450

The cockpit is ideal for entertaining with L-shaped seating, while an optional fridge and BBQ add to the fun of alfresco dining. The area also features such practical additions as a large lazarette locker with ample storage space.

Entry to the saloon is through a three-part glass sliding door – an easy access point that transforms the cockpit and the saloon of this single-level deck into one large versatile social space. At the helm, twin seats are a welcome addition to the craft and so is the hull design with its tried and tested propulsion system – able to deliver stable cruising at all speeds.

Make your way up to the flybridge and you'll discover an incredibly versatile space. Significantly larger than its predecessor, the F450 flybridge has room for six to dine in comfort around a large dining table. This area can also be transformed into a large sunbed as the seats fold down, while an optional top loading fridge make the most of the world around you.

F450

Back in the effortlessly stylish saloon, that feeling of light and space continues with the stunning 360° panoramic view. A comfortable L-shaped seating and sofa area can easily be converted into an occasional double berth. There's also easy access to an optional fridge, raise-lower TV and a beautifully crafted table.

A fully equipped open plan galley can be found to the port side, an atrium allows light to flood in, while there's a double sink, hob and stowage space in abundance, including wine glass and under floor storage.

Saloon featuring the optional port side arrangement with raise and lower TV.

F450

Below deck there are two cabins offering five berths as standard. The luxurious master cabin, with its clever use of storage space, gives you plenty of room to unwind. Meanwhile, a separate ensuite shower and toilet facilities create a relaxing spa-like environment. A skylight above the bed illuminates the room and creates a wonderful feeling of space. Cabin windows let in extra light and offer peaceful waterside views.

For additional space and privacy, the F450 offers a midships cabin that can be configured as either three separate berths, a twin or double. This cabin also features a shower and separate toilet with a skylight, while a pullout door creates privacy for the mid cabin when the dayhead is being utilised.

Like the master cabin, there is plenty of storage space and the large rectangular cabin windows provide extra light for an airy, relaxing feel.

IT'S NOT JUST INTERIOR.  
IT'S THE SETTING OF  
YOUR EASY-GOING LIFE.

There are countless ways to kit out the interior of your boat. No matter what materials you choose: The quality will always be first-class. Carefully selected fabrics, exquisite floorings and a wide range of well-balanced colours create an ambience you'll enjoy each day anew.

## BRAND PHILOSOPHY

GERMAN PRECISION AND  
PASSION FOR THE SEA.  
THAT'S WHAT A SEALINE  
IS MADE OF.

In 2013, the Sealine brand found a worthy new home on the German Baltic coast. At our shipyard in Greifswald we have perfected the interplay between state-of-the-art manufacturing techniques and skilled employees.

The outstanding people in our team perform their work with enormous experience, a deep understanding of the customer and great dedication.

In addition, we are thrilled to cooperate with international partners like Bill Dixon. Working closely with our in-house personnel, the award-winning designer will create a new range of innovative Sealine models.

Above all, we believe that what holds true for the experienced boater, also holds true for us as boat builders: "Never sail against the sea, sail with it". Beyond the individual skill, there is something which genuinely binds all of us at Sealine: A great passion for the sea.

## DROP ANCHOR AT SEALINE

YOUR LOCAL SEALINE DEALER IS LOOKING FORWARD  
TO YOUR VISIT.

\* All performance figures are given in good faith and are intended as an indication. These figures cannot be guaranteed as top speed, in particular, is affected by the cleanliness of the hull, conditions of the propellers, weight carried and air/sea temperatures. Sealine HanseYachts AG reserve the right to change specifications in line with the company policy of improvement through research and development. Errors and omissions excepted. Models shown in this brochure may include additional cost options that are not part of the standard specification. Accessories shown are for illustrative purposes only and are not included in the purchase price. Please check with your dealer for a full list of inclusions.
